DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 20, 2006 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9, 11, and 13-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kirchmeyer et al, 5,811,480, as applied in previous Office Actions, in view of Piret 6,025,073.

Kirchmeyer is as set forth previously but does not teach the inclusion of a polyether based polyurethane solution. Piret teaches sizing compositions comprising polyether based polyurethane, said compositions having high solubility. It would have been obvious to the skilled artisan to modify the composition of Kirchmeyer by including a polyether based polyurethane as taught by Piret with the reasonable expectation of producing a sizing composition for glass fibers having high solubility.

Response to Arguments

4. Applicant's arguments with respect to claims 1-9, 11, and 13-20 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

5. Claims 10, 12, and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
